

# NHLANGANO CHERLTON MHANGWANA

Software Engineer | Full-Stack & Mobile Developer

Johannesburg, South Africa | 065 242 1927 | cherltonmhangwana@gmail.com  
linkedin.com/in/nhlangano-mhangwana-4418612a4 | github.com/cherlton | chlportfolio.vercel.app

## PROFESSIONAL SUMMARY

Software Engineer with 2 years of experience building scalable web and mobile applications and APIs across telecom, AI, HRtech, and marketplace domains. Proficient in Python (Flask/FastAPI), Java (Spring Boot), C# (.NET), React, TypeScript, and Kotlin for Android. Experienced in Agile delivery, cross-functional frontend/backend integration, performance optimization, and production support. Immediately available to start.

## TECHNICAL SKILLS

**Languages:** Python, Java, JavaScript, TypeScript, C#, PHP

**Frontend:** React.js, React Native, TypeScript, Tailwind CSS, Responsive UI Design

**Mobile:** React Native, Cross-platform UI integration with OCR & AI services

**Backend:** FastAPI, Flask, Spring Boot, Node.js, C# (.NET) APIs, REST APIs, JWT Authentication

**Databases:** MySQL, PostgreSQL, ERD Modeling, Query Optimization

**Testing:** Pytest, JUnit, Jest, Unit Testing, API Testing

**DevOps & Tools:** Git, Docker, cPanel, CI/CD Fundamentals, Microsoft Azure (Basic)

**Concepts:** OOP, Data Structures & Algorithms, API Security, Agile/Scrum

## SOFT SKILLS

Problem-Solving, Analytical Thinking, Communication, Adaptability, Time Management, Ownership & Accountability

## AI FLUENCY

**Core Skills:** Prompt Engineering, LLM API Integration, AI-Assisted Code Generation & Debugging, AI-Assisted Research & Technical Documentation

**AI Platforms:** ChatGPT, Claude, Gemini, OpenAI API, Anthropic Claude API

**AI-Enabled IDEs:** VS Code, Cursor, PyCharm, Antigravity

## PROFESSIONAL EXPERIENCE

### Frontend Developer – Sisol Labour Project

Sept 2025 – Jun 2026 (Ended)

CEO: Solomon Makgobatlou

- Partnered with the backend team to learn C# (.NET) API integration patterns, then translated that architecture into a responsive React + TypeScript frontend as sole frontend/UI-UX developer.
- Designed and automated HR documentation workflows, cutting manual administrative effort by 30% and improving process efficiency.
- Built responsive, accessible dashboards compliant with POPIA and B-BBEE regulatory requirements, ensuring the platform met local legal and industry standards.
- Owned the frontend development lifecycle independently, from UI/UX design through implementation, demonstrating strong ownership and adaptability in a lean team environment.

### Software Engineer Intern – Fluid Intellect

Jan 2025 – Aug 2025

CEO: Samantha Sighn

- Built and shipped full-stack features using Flask and React for a production application supporting 1,000+ active users, following Agile/Scrum practices end-to-end.
- Optimized backend queries and implemented caching, improving API response times by 25% and strengthening overall application performance.
- Designed and implemented secure REST APIs with authentication best practices, participating in peer code reviews to uphold code quality standards.
- Collaborated cross-functionally with design, backend, and QA through sprint planning, stand-ups, and deployments, gaining full software development lifecycle experience.
- Built the React Native mobile interface for Lumora, integrating OCR and AI/NLP services to deliver real-time, tap-to-define functionality for end users.

CEO: Gian Visser

- Diagnosed and resolved 50+ high-priority technical incidents weekly across network and ISP issues, consistently meeting and exceeding SLA targets.
- Performed root-cause analysis on recurring issues and documented findings, escalating complex cases to engineering for faster resolution.
- Collaborated cross-functionally with network engineers to flag systemic issues, contributing to improved first-contact resolution rates.
- Delivered clear, customer-focused support under pressure, building strong communication and problem-solving skills in a fast-paced, ticket-driven environment.

KEY PROJECTS

Lumora – Document Scanner & Interactive Definitions App

React Native, Python/JavaScript, OCR, OpenAI API

- Contributed to the mobile frontend using React Native, letting users tap on scanned document text to instantly view definitions and descriptions, integrating with OCR and backend NLP services.
- Fluid Intellect team project (no public repo); can be confirmed via Fluid Intellect references listed below.

SafetyNet API – Community Safety Incident Platform

Java (Spring Boot), PostgreSQL/PostGIS, Twilio WhatsApp API, Anthropic Claude API

- Built a community safety backend enabling incident reporting via WhatsApp, using a 3-tier layered architecture with Twilio webhook integration.
- Used the Anthropic Claude API to extract structured incident data from natural language reports, persisting geotagged records to PostgreSQL/PostGIS, secured with Spring Security.

Insight Sphere – AI Creator Intelligence Platform

Python (Flask/FastAPI), React, Vector Search

- Built backend services for AI-driven trend analysis, niche discovery, and content generation.
- Implemented APIs for hooks, scripts, hashtags, collaboration matching, and ROI analytics.

Labour X – Workforce & HR Operations Platform

React, TypeScript, C# (.NET), Tailwind CSS

- Built workforce management interfaces for onboarding, staff records, and HR documentation.
- Automated document approval flows and implemented POPIA/B-BBEE compliance modules.

SisolConnex – Recruiter-Facing Talent Platform

React, TypeScript, Tailwind CSS

- Refined the frontend of a recruiter-facing platform, improving UI consistency and navigation.
- Implemented fully responsive layouts using Tailwind CSS across desktop, tablet, and mobile.

More projects (Mood DJ Backend, Email Builder, Textbook Trader, Network Testing App, Sneaker Trader Platform) at [github.com/cherlton](https://github.com/cherlton)

EDUCATION

Diploma in Computer Science – Tshwane University of Technology

2021 – Aug 2025

National Senior Certificate (Matric) – Johannesburg Polytech Institute

2014 – 2019

CERTIFICATIONS

- Responsive Web Design – freeCodeCamp
- cPanel Professional Certification (CPP)
